

Make your fundraiser POP!

Big bags. Big flavor. Big fundraising rewards.

\$10 A BAG

Your organization keeps 50%

That is \$5 toward your cause from EVERY bag sold.

FOUR DELICIOUS FLAVORS

Kettle Corn

A classic salty-sweet favorite

Caramel Corn

Sweet caramel goodness

Cheese

A savory snack to share

Movie Theater

A movie-night favorite

Enjoy popcorn packaged in **8 x 15-inch bags** while helping a church, school, team, club, or community organization reach its goal.

100 bags sold = \$500 raised

200 bags sold = \$1,000 raised

Your campaign playbook

Personal conversations. Advance orders. A shared goal.

Set your goal

Every bag sells for **\$10**. Your organization keeps **\$5** and the remaining **\$5** is the product portion payable to Ms Graces Kettle. Your bag goal = fundraising dollar goal divided by \$5; round up to a whole bag.

1. Plan with Ms Graces Kettle.

Confirm the campaign dates, ordering process, payment arrangements, and pickup or delivery details before launching.

2. Give every seller an order sheet.

Write the organization, seller name, contact information, and order deadline on each sheet. Copy page 3 as often as needed.

3. Take orders the old-fashioned way.

Talk with family, friends, neighbors, and coworkers. Record customer names, contacts, flavor quantities, and payment status. Follow the organization's agreed payment instructions.

4. Combine the orders.

Collect all seller sheets. Check totals and payments, then complete the group summary on page 4. Confirm the final order and fulfillment details with Ms Graces Kettle.

5. Distribute and celebrate.

Match bags to the original customer orders. Use page 5 for customer reminders or receipts. Thank supporters and share how much your group raised.

Why advance orders work

Know what to order, give supporters flavor choices, and connect each purchase with your mission. Keep completed sheets with the coordinator for accurate distribution.

Ready to begin? Order your fundraising packet today!

Seller order sheet

Enter the number of bags in each flavor column. Every bag is \$10.
